Disclaimer

You are authorized to view, print and retain a copy of this document (the Presentation) solely for your own use. By accessing, downloading or reading this Presentation, in whole or in part, you hereby agree to be bound by the terms and conditions as set out below. No information contained in this Presentation may be copied, duplicated, reproduced, redistributed, published, exhibited or the contents otherwise directly or indirectly released or disseminated, in whole or in part, by any means and for any purpose to any person other than your employees, directors, officers or advisors who agree to be bound by the limitations set out herein.

This Presentation is solely for information and discussion purposes and does not create any legally binding obligations on Invego Latvia OÜ, its legal counsel or the arranger. The information herein is summarised, not comprehensive, indicative and non-binding. You should not rely upon it or use it to form the definitive basis for any decision, commitment or action whatsoever. Invego Latvia OÜ, its legal counsel or the arranger give no guarantees, warranties or representations as to the accuracy or completeness of the information contained in this Presentation.

This Presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities, nor any financial promotion. The bonds referred to herein are offered only in Estonia, Latvia and Lithuania and exclusively based on the following documents: the information document (prepared in accordance with 6 May 2024 Regulation of the Estonian Minister of Finance “Requirements for the Information Document for the Offering of Securities”), the issue terms of the bonds (including the final terms) and other documents referred therein which are all available at www.invego.ee/investor. This Presentation is distributed by Invego Latvia OÜ or the arranger in Estonia, Latvia and Lithuania for discussion purposes only. This Presentation may not be transmitted, published or distributed by anyone else or to anywhere else. Persons into whose possession this Presentation comes are required to inform themselves about and to observe any such restrictions.

This Presentation does not constitute a prospectus or a base prospectus for the purposes of Regulation (EU) 2017/1129, as amended from time to time, nor an information document or any other offer document. This Presentation has not been submitted to, reviewed by, confirmed, registered or approved by any regulatory or supervisory authority of any jurisdiction. The bonds are offered in accordance with Article 3(2) of Regulation (EU) 2017/1129 and respective national legislation of Estonia, Latvia and Lithuania based on the information document, the issue terms of the bonds (including the final terms) and other documents referred therein and available at www.invego.ee/investor.

Investment in the bonds of Invego Latvia OÜ discussed herein involves certain risks. The principal risk factors that may affect the Invego Latvia OÜ's ability to fulfil its obligations are discussed in the information document

available at www.invego.ee/investor. If any of these risks materialize, the investor may not receive the expected return or may incur partial or complete loss of their investment. The list of risks is reflective of Invego Latvia OÜ's understanding of risks related to the issue of bonds as of the date of the information document. The list of risks should not be deemed to be exhaustive. Additional risks and uncertainties relating to Invego Latvia OÜ that are not currently known, or that are currently deemed immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of Invego Latvia OÜ and its ability to redeem the bonds.

The bonds mentioned herein may not be appropriate investment for persons. Before entering into any transaction in respect to the bonds you must ensure that you fully understand such transaction and have made an independent assessment of the appropriateness of such transaction in the light of your own objectives and circumstances. Prospective investors should carefully acquaint themselves with the information document (including the risk disclosure), the issue terms (including the final terms) and other documents of the issue of the bonds before making a decision to invest in the bonds. Nothing in this Presentation, the information document, the issue terms (including the final terms) or other documents of the issue of the bonds may be construed as investment, financial, legal, tax, accounting or other specialist advice or a recommendation. Investors should conduct their own inquiries into the possible financial, accounting, legal risks and tax consequences associated with the issue of and investment in the bonds.

The information contained in this Presentation or the information document has not been independently verified. Each prospective investor is encouraged to seek your own independent advice and make your own independent assessment in relation to any of the risks discussed as well as any additional risks to fully understand the benefits and risks associated with the investment.

This Presentation presents a snapshot of selected pipeline projects planned for 2025/26 by companies associated with Invego Latvia OÜ, which are currently in the planning stages. Visuals and projected figures are preliminary and may be adjusted as the projects progress. Any forward-looking statements included in this Presentation are subject to risks, uncertainties and assumptions about the future operations of Invego Latvia OÜ and associated companies, the macro-economic environment and other similar factors. No assurance is given in respect to forward-looking statements.

This Presentation includes projects that are currently not for sale and the total volumes (not only expected volumes during the bond term).

At Invego, we don't just create buildings; we shape future environments that inspire living and working. Our vision is simple: to design spaces where people thrive. By collaborating with the best in the field and focusing on innovation, we develop forward-thinking investments that shape tomorrow.

• is a • mindset

that focuses on creating innovative and inspiring living and working environments.

10+ YEARS OF
EXPERIENCE

1300+ HOMES
CREATED

A PIPELINE OF MORE THAN
450 000 m²

Invego is a visionary

Real estate developer from Estonia

with more than 10 years of market experience both in residential and commercial real estate with more than 150 000 m² developed. Remarkable pipeline of more than 450 000 m².

2nd largest residential developer

in Estonia 2020–2024 by number of sold homes (statistics by Tõnu Toompark).

Invego group contains over

60 companies

which operate under the „INVEGO“ brand and are managed by the Invego team.

2020 – 2024 Invego projects generated

€170 million

from the sale of 875 new homes.

The company began its extensive expansion into the

Latvian market in 2022

becoming the second largest residential developer by 2027.

Invego's core markets are Estonia and Latvia. Furthermore, in 2023 the company entered

Portugal

developing over 100 hectares in Algarve region.

30+ developments in 3 countries

Latvia

PROJECTS IN SALE: 6
PROJECTS IN PIPELINE: 6

— Invego started to explore the Latvian market, with the first land acquisition in 2018

— The experience from the initial projects paved the way for Invego's active expansion into Latvia, marked by the acquisition of a substantial land portfolio

Estonia

PROJECTS IN SALE: 6
PROJECTS IN PIPELINE: 9

COMPLETED PROJECTS

— 10 new residential developments and full scale modern districts (incl. Tiskreoja, Vana-Peetri, Tabasalu Kodu, Novamaja)

— 5 commercial developments (incl. new Wise Estonia HQ, Yolo Group HQ)

Portugal

PROJECTS IN SALE: 1
PROJECTS IN PIPELINE: 1

— First development project Silves Hills in the sales phase – 154 villas spanning 65 hectares in Algarve

— Additional 80 villas across 44 hectares in planning

Why Latvia?

High potential for new housing

Over 90% of Riga's residents still live in aging Soviet-era apartments. With a 48% overcrowding rate — the highest in the Baltics (Eurostat 2023), compared to 21% in Estonia and 31% in Lithuania — there is a clear and growing demand for modern homes.

Favorable affordability and lending landscape

Riga offers the most affordable housing among the Baltic capitals. Average loan sizes remain nearly 2x lower than in Tallinn or Vilnius, while official income levels and loan accessibility are steadily increasing. Compared to Estonia, the number of home loans issued per capita in Latvia is currently twice as low.

Thoroughly prepared next step

After thorough preparation and market research, we are bringing our highly experienced team and more than 10 years of expertise in large-scale residential and commercial developments to Latvia. With proven scaling know-how, deep market knowledge, and a quality-first mindset, we are ready to build a strong presence in our neighboring core market.

Strategic location at the heart of the Baltics

Positioned between the more developed Estonian and Lithuanian markets, Latvia benefits from regional integration, growing economic momentum, and cross-border banking — creating strong tailwinds for catch-up growth.

ZAKUSALA ISLAND

Expansion to Latvia

2018

Start of the new market learning phase

Riga market research and feasibility assessments for potential new developments

Development of the strategic vision and key terms for Invego's Riga pilot project

Acquisition of the Parka Kvartāls land plot for the pilot project-co-venture with Reterra

2019–2021

Hands-on active market learning process through the pilot project (Parka Kvartāls), including the conceptual planning, design & construction permits process

Acquisition of the 2nd project in Riga, Skanstes Rezidences land plot in Skanstes area and the 3rd project in Miera street

2022

Strategic decision to expand more actively into Latvia and consider it as Invego's core market

Start of the Parka Kvartāls 1st phase construction

Acquisition of the 4th project Vitolu Parks land plot in Duntē street

2023–2024

Creation of the Invego Latvian future development pipeline through the acquisitions of the 5th, 6th, 7th, 8th, 9th, 10th and 11th project land plots in Riga and the Riga metropolitan areas – a diverse portfolio targeting different customer segments across various locations

Opening of Invego's Riga office and building the team

Start of construction of Skanstes Rezidences complex

2025 – ...

Bringing Invego's vision and proven development expertise to Latvia by transforming acquired land into inspiring future-focused, award-winning residential neighbourhoods

Establishing a strong foothold in the market, consistently ranking among the top3 residential real estate developers in Latvia

BRINGING PROVEN SUCCESS TO LATVIA WITH OUR KNOW-HOW AND CULTURE. BRINGING PROVEN SUCCESS TO

Others about us

"If EfTEN Capital were in the business of residential real estate development, we would want to be just like Invego — active, efficient, hands-on, always focused on the right goals, and constantly moving forward. EfTEN and Invego share a similar DNA. Real estate is an industry where like-minded companies attract each other and collaborate, and that's exactly what we do."

Viljar Arakas

Chairman of the Management Board

"Positive energy is contagious — and Invego has plenty of it. You simply can't carry out big, city-shaping projects any other way. The good cooperation between Coop Pank and Invego has lasted for years. Over that time, we've built mutual trust that enables us to take on ever larger and more exciting developments!"

Arko Kurtmann

Head of Corporate Banking
Member of the Management Board

"Invego has vision, courage, and scale. Their entire team operates with clear objectives and executes them boldly alongside industry leaders. Their developments are never just apartment buildings; they are comprehensive, large-scale solutions with a strong vision. Simply put — I truly enjoy working with Invego."

Tiiu Truus

Interior Architect

"Our partnership with Invego has grown into a strong alliance over time, where trust and shared values create the foundation for extraordinary projects. We share the understanding that a living or business environment must be more than just four walls — it must be an inspiring and cozy, well-thought-out, and sustainable place where people feel good. The experience of NOBE engineers and Invego's vision form a truly powerful tandem in this collaboration."

5. Bond issue

Diversified portfolio in different segments and areas

Invego combines expertise with a **strategic footprint in Tallinn, Riga, and surrounding areas**, ensuring a balanced and resilient high quality real estate portfolio

In Estonia 6 projects in sales phase and 9 projects in pipeline.
15 completed projects (10 residential, 5 commercial).

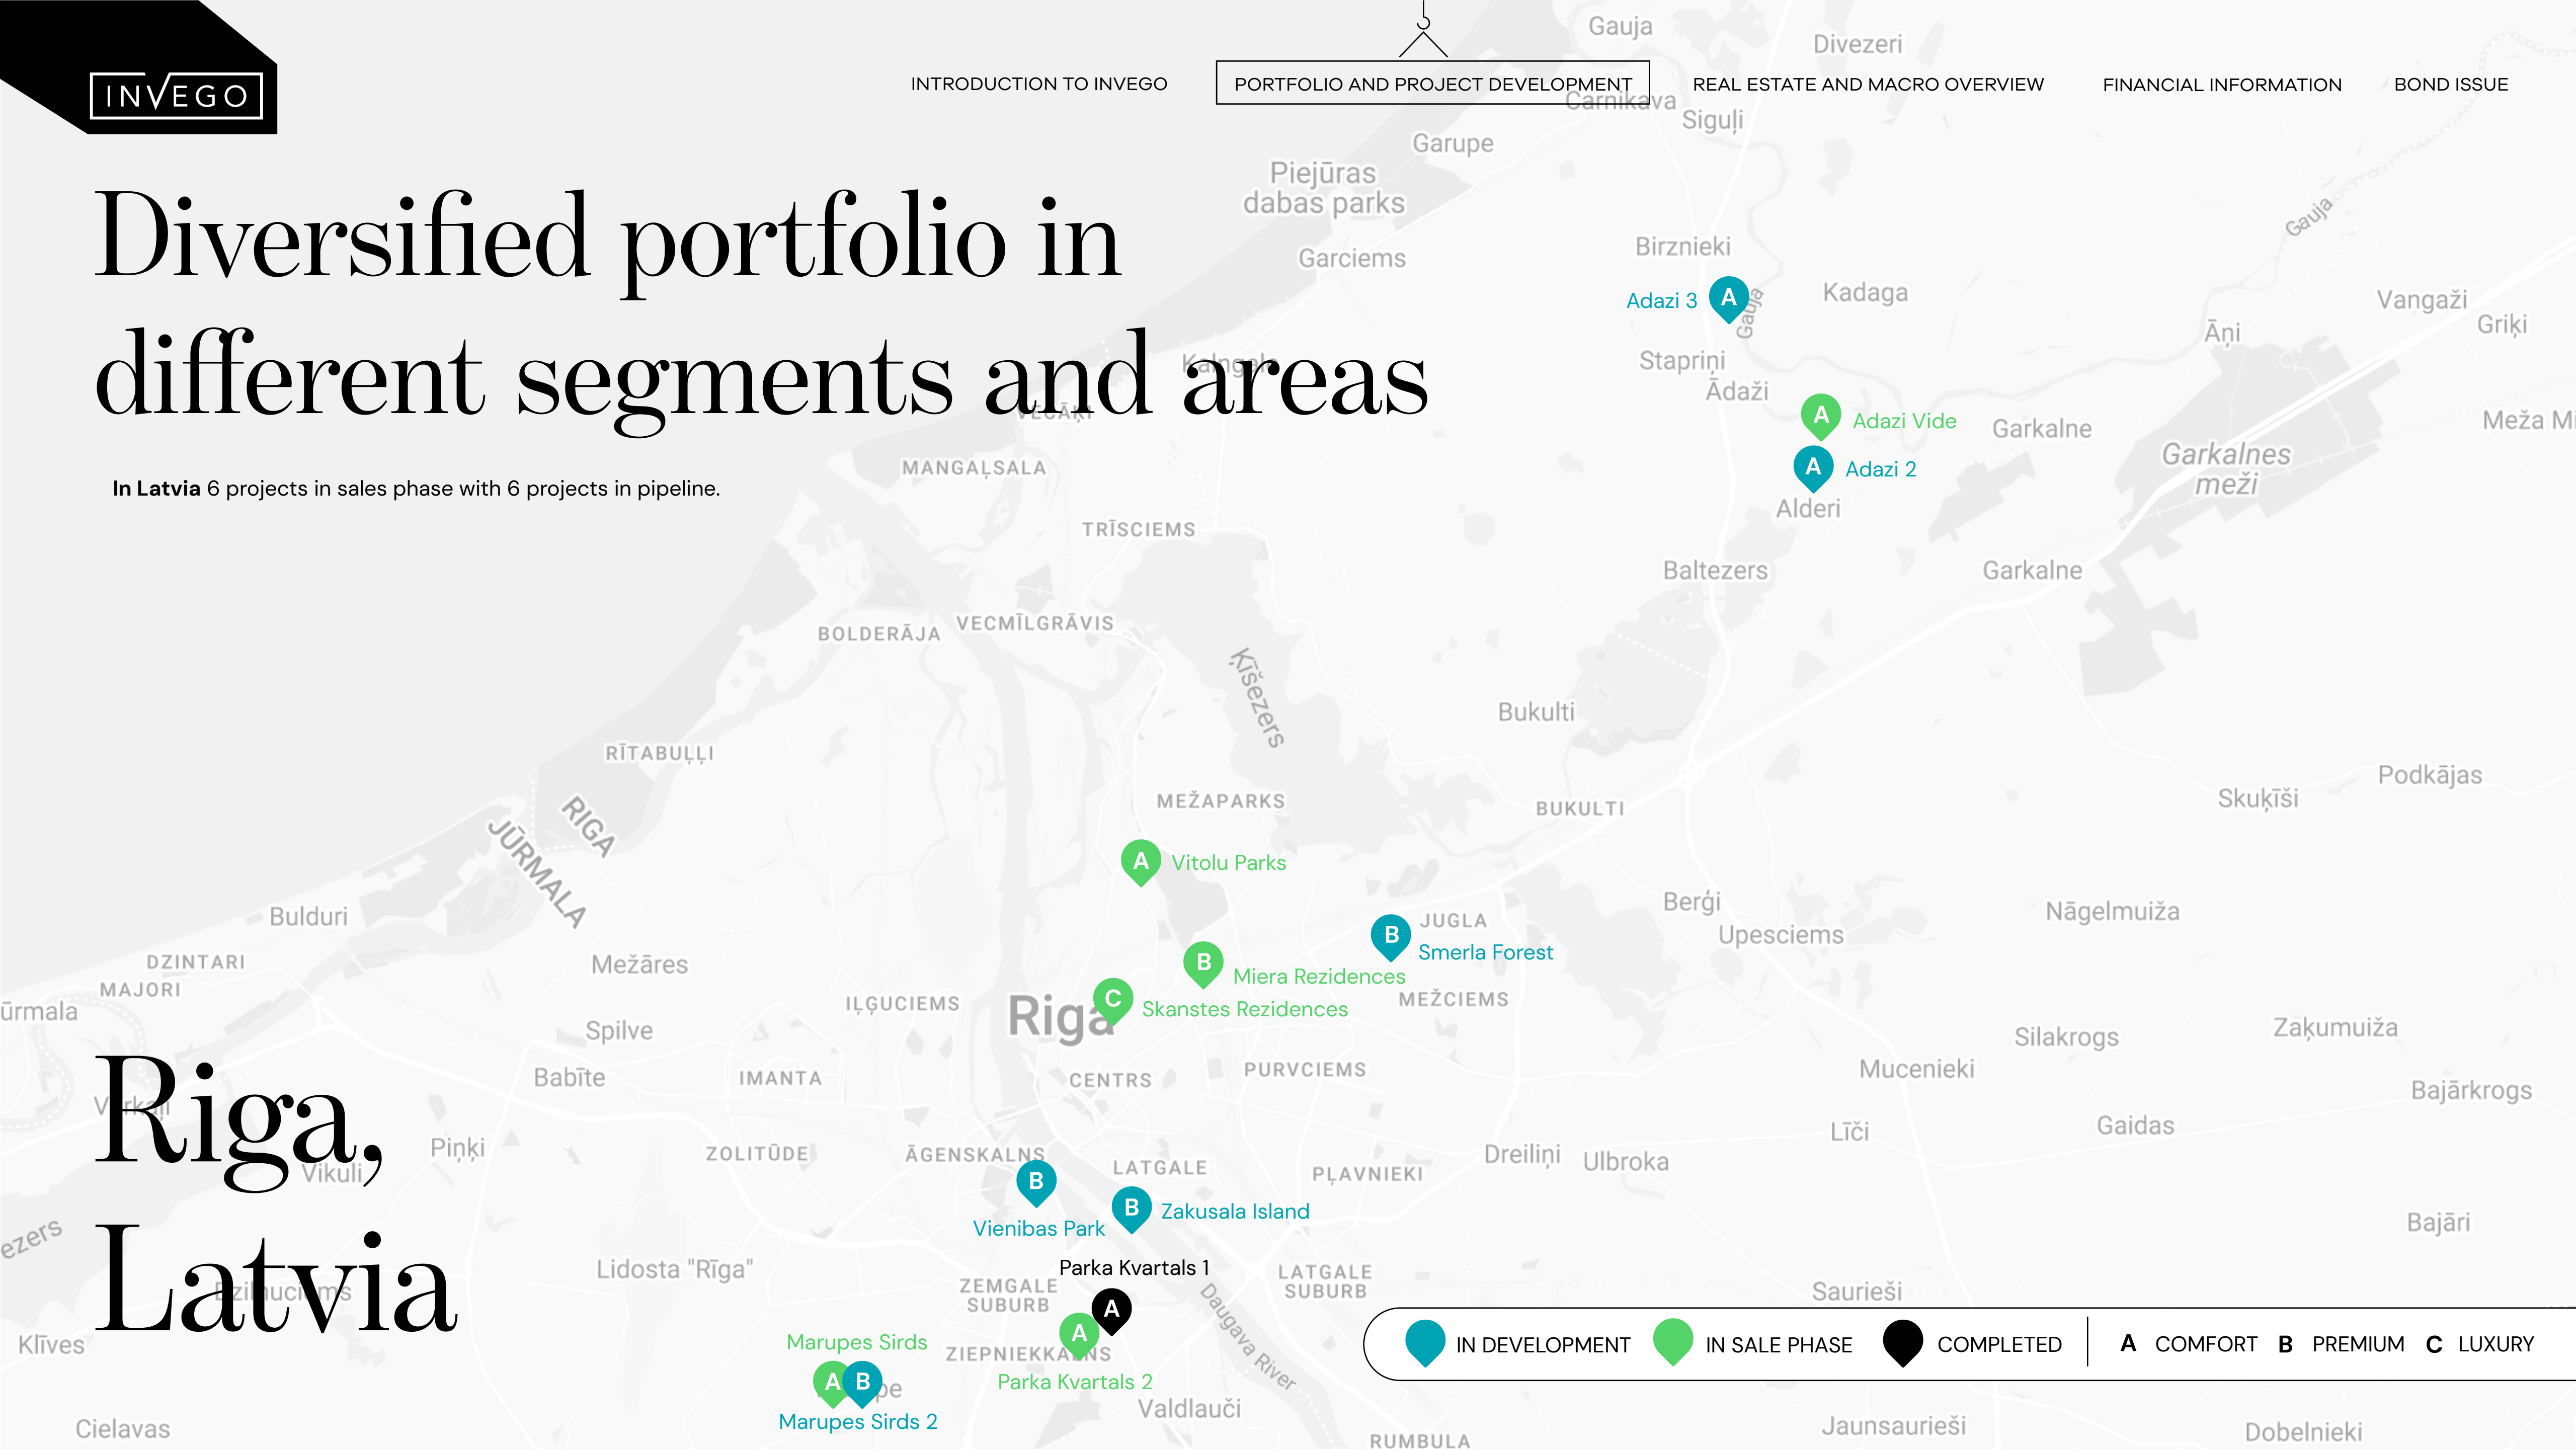

Tallinn, Estonia

Diversified portfolio in different segments and areas

In Latvia 6 projects in sales phase with 6 projects in pipeline.

Riga, Latvia

We create

future-forward urban
environments, crafting
value that evolves with time.

KRULLI
PARK

Project development cycle

Preliminary analysis

Market research and scouting of new investment properties

Comprehensive due diligence assessment to ensure the suitability for Invego's vision, including technical, legal, financial, environmental and business analyses

Co-operation with local municipalities and governmental institutions to clarify the allowed volumes and various other technical aspects

Only projects providing a secure and profitable development will qualify to the next phase

Concept Development

Invego team works out a preliminary concept for the whole project, which follows Invego's standards, best market practices and optimizes the project for the specific location

In every new Invego's project, one of the core priorities is creating most suitable and forward-looking living environment for the specific location

Land acquisition

Extensive negotiations with the existing land owners to acquire the chosen land plots

Negotiations with financial investors for projects where co-financing at the land acquisition stage is strategically beneficial — enabling a more diversified development portfolio and enhancing profitability for Invego Group

Concept Execution

Public or private architectural competition between 3-5 leading architectural firms to create the most suitable concept

The competition terms incorporate key criteria developed during Invego's initial in-house concept creation process

Marketing and sales preparation, start of pre-sales

Construction

Public or private construction tender between 3-5 leading construction companies

Extensive negotiations with top bidders in the tender to get the best price and terms

Negotiations with leading 3-5 banks to secure most suitable bank financing to finance the construction phase

Completion

Handover of the completed homes to clients

Warranty period (up to 5 years)

External financing is repaid to the project's financing bank

Disbursement of profit and performance fee to Invego

Disbursement of investors' share of profit to the financial investors participating in the specific project

Tiskreoja case study

Tiskreoja – one of the largest residential developments in modern Estonia

Tiskreoja stands out as one of the most significant residential projects, developed across more than **20 hectares**.

The project introduced an entirely new residential district featuring **34 modern buildings**, Estonia's **largest privately developed open-access outdoor sports and play area**, and innovative technical solutions such as **elevators in all three-story buildings**.

Tiskreoja includes **500 new homes** with comprehensive infrastructure and serves as a **case study and benchmark** for multiple upcoming developments in Latvia.

The entire project lifecycle—from **land acquisition in 2018 to investor profit distribution—was completed in just 5 years**, showcasing exceptional execution speed.

Tiskreoja achieved over **€72 million in total sales revenue** and generated more than **€14 million in profit**, delivering an impressive **300% ROI** for investors.

Vana-Peetri case study

Vana-Peetri - a residential development in the Southern side of Tallinn

Vana-Peetri was one of the leading residential projects in Rae Parish, Southern Tallinn, Estonia. Across 5 hectares 132 new homes were developed, including premium row-houses and 3-floor apartment buildings, together with a large variety of outdoor sports and play activities for both kids and families.

The entire project lifecycle—from land acquisition in 2HY 2016 to investor profit distribution—was **completed in 2.5 years**. Project

generated over **€17 million in total sales** and **€2.5 million in profit**, delivering **120% ROI** for investors.

| DURATION | PROFIT |

Tabasalu Kodu case study

Tabasalu Kodu - a residential development in the Western side of Tallinn

Tabasalu Kodu residential project created a new residential district to the heart of Tabasalu, in the Western side of Tallinn, Estonia. Across 4 hectares 102 new homes were developed, including Invego standard row-houses and 3- and 4-floor apartment buildings. Nearby are located several public facilities like the new Tabasalu State School, kindergarten, library and sports facilities.

The entire project lifecycle—from land acquisition in 2HY 2019 to investor profit distribution—was **completed in 3 years**. Project generated **€15 million in total sales** and over € 2 million in profit, delivering **125% ROI** for investors.

With over 450,000 sqm of future projects in the pipeline, we're shaping the next phase of real estate development for years to come.

This gallery offers a glimpse of our future projects in Estonia and Latvia, which are in the planning stages. The visuals are conceptual and subject to change.

1. Introduction to Invego
2. Portfolio and project development

3. Latvian real estate & macro overview

4. Financial information
5. Bond issue

Positive macro trends laying foundation for future growth

EURIBOR has retreated from its recent highs, steadily aligning with the ECB's 2% target

The ECB deposit rate is expected to reach 1.75% in the second half of the year

Source: Bank of Latvia, Bloomberg

Decline in EURIBOR increases housing affordability

Monthly mortgage payment of 50 sqm apartment at median new apartment sqm price (EUR 2,770) sensitivity to EURIBOR, assuming 30-year mortgage schedule and 1.5% interest margin.

Continued nominal wage growth in Latvia expected, supported by declining unemployment rate

Solid revenue growth forecasted by Bank of Latvia, supporting increased affordability

Housing affordability in Riga

- More than 90% of Riga's population still live in the old apartments, with the majority of these built during the Soviet times.
- Affordability of apartments among the three Baltic countries capitals is the best in Riga.
- Average issued loan amounts in Riga are almost twice as low compared to other Baltic capitals due to the large share of soviet-era apartments. Main banks operate through the 3 countries and offer very similar lending terms. Banks see the greatest potential for new lending to increase in Riga.

Baltic Housing Affordability

Size of an apartment that an average household can afford to purchase with a mortgage (sqm)

Average issued loan amount

In EUR'000, apartments only

Average monthly net wage

On average the salaries in Riga are the lowest, while the amount of inhabitants is the largest

Riga residential market activity

- Key residential real estate developers in Riga are the same that are present in Tallinn, while the total number of active competitors is significantly lower
- Bonava leads the new apartment sales volumes in Riga, while in Estonia it ranked 3rd after Invego, in terms of number of homes sold in 2020–2024
- In Riga, existing developers have primarily focused on cheaper segments, while Invegos' standard products are aimed at the middle to premium market segments (as per Colliers' classification). Higher segments potential has not yet been filled with suitable products
- With a near-term pipeline of 1,721 units, Invego is well-positioned to become one of the top developers in Riga during the Bond term.

TOP developers in Riga, by number of apartments sold, 2020-2024

Source: Colliers, Uus Maa

New apartments added to the market

Over the past 3 years, the decline in the total number of apartments sold in Riga has not been as sharp as in Tallinn. The market has remained relatively active and stable throughout this period.

New apartments price dynamics

Average new apartment price reached 2 770 EUR/sqm in 2024. As comparison, average new apartment price in Tallinn was 4 200 EUR/sqm. Price increases in the past 5 years have not been as sharp as in Tallinn and include better further growth potential

Number of transactions

Similarly to Tallinn, in Riga, in 2024 registered sales in the primary market declined by 27%, reaching their lowest level in the past five years. However, a slight increase in demand during the 4th quarter of 2024 suggests that the market may have already passed its lowest point

Two-room apartments continue to dominate the market. Existing Riga developers have been more conservative in the development of 4-room family apartments segment, where Invego has been successful in Tallinn

1. Introduction to Invego
2. Portfolio and project development
3. Real estate and macro overview

4. Financial information

5. Bond issue

PARKA
KVARTĀLS

Project financing and distribution of funds

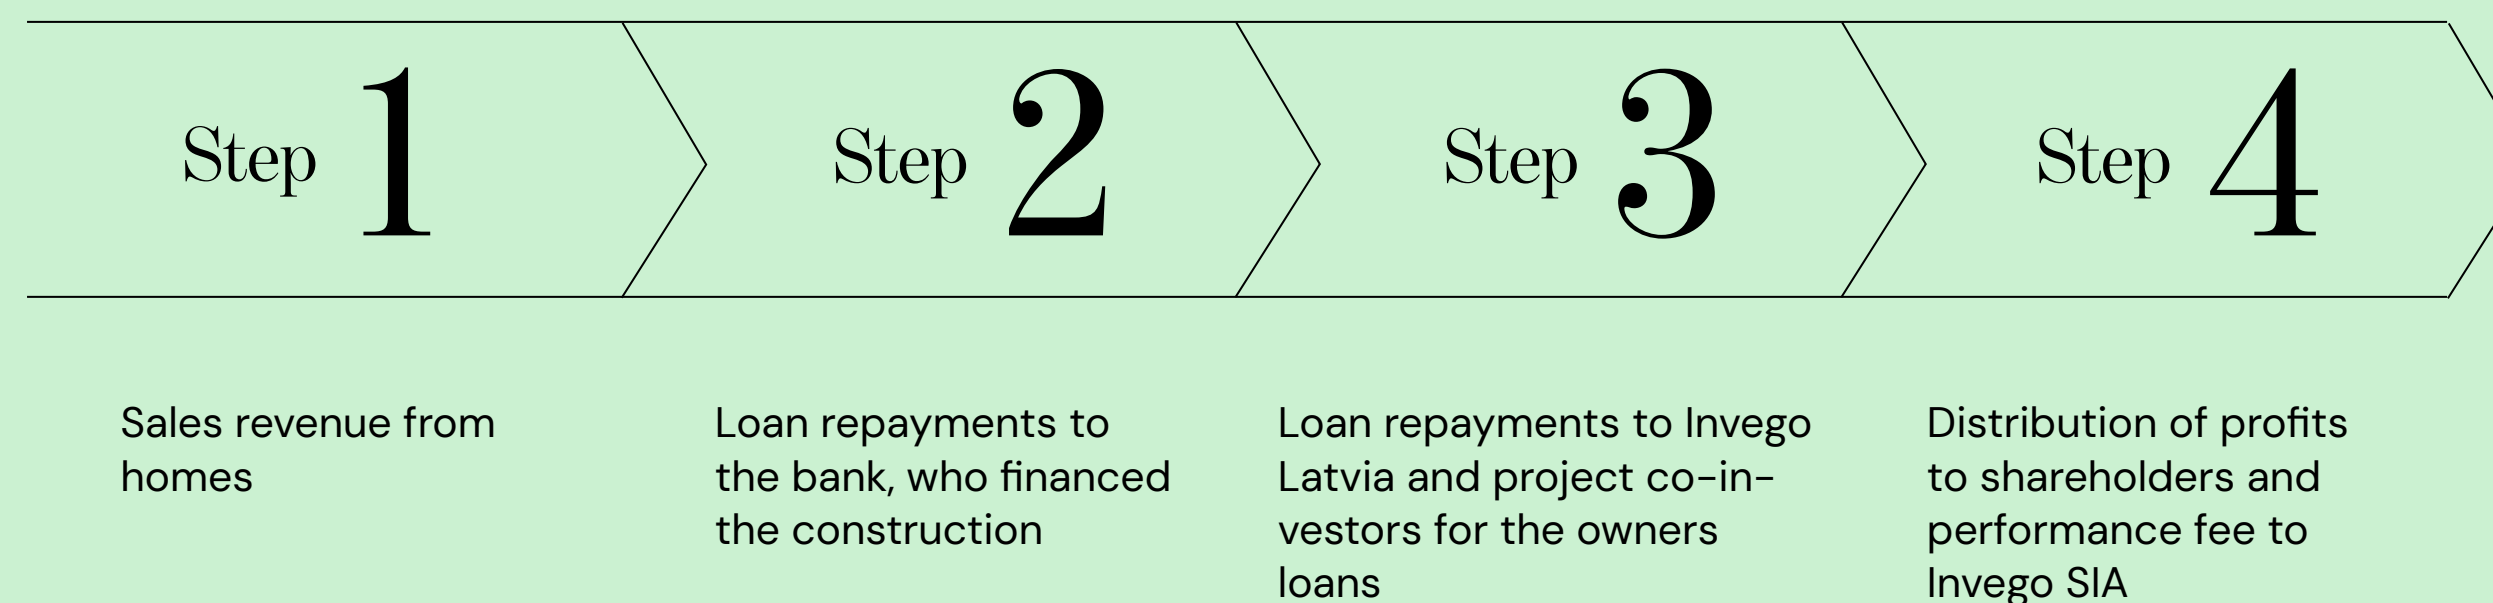

Financing structure

- Invego manages and controls all the projects and SPV-s, while its direct shareholding in the project is between 20–100%. This allows to diversify the portfolio and generate optimal return through the performance fees
- Land acquisition, pre-construction development activities and design are financed with own and co-investors' funds, for infrastructure and buildings construction banks' financing is used.
- Invego's and co-investors' funds mainly enter SPVs as loans, in Latvia partly as equity.

Distribution of funds from SPVs

- Invego receives returns from it's managed development projects both through its equity investment 'skin-in-the-game' profit distribution and an additional project management and performance fee
- Performance fee is typically between 20–30% of the project development profits
- After completion of a development project or a phase of a project, positive cash-flows are collected by Invego Latvia SIA and performance fee by Invego SIA (subsidiary of Invego Latvia SIA). Both sources of income will be used to repay the Invego Latvia OÜ bond. Development project funds are distributed from the SPV in the following order:
 - Loan repayments to the bank, who financed the construction
 - Loan repayments to Invego Latvia and project co-investors for the owners loans
 - Distribution of profits to shareholders and performance fee to Invego SIA

Acquired land and planning costs

Book value of acquired land and capitalized development costs.

Invested actual amounts as of 30.04.2025.

No revaluations have been made.

€24.9 million

has been invested in Invego's Latvian development projects for the acquisition of land plots and pre-development costs. The investment has been made using Invego's and its co-investors' own funds

Future development volumes

Expected total sales revenue in the Latvian projects during the bond period exceeds €300 million

– An investor must have an active securities account to which bonds will be allocated

– Bonds are offered via public auction, investors can submit orders through LHV, Swedbank and SEB

– Investors must have sufficient funds in their account at the time of the subscription, the amount will be reserved until allocation

– Subscription period starts 12 May 2025 at 10.00 and ends 22 May 2025 at 15:30

– The allocation of the bonds will be decided after the subscription period ends, and the results will be announced on 26 May 2025

The bonds will be allocated to investors based on the following principles:

- Equal treatment of investors under similar conditions.
- Building a solid and reliable investor base.
- Different allocation principles may apply to retail and professional investors, those subscribing for more than 100 bonds can be treated as professional investor.

Preference may be given to the following investors:

- Existing lenders to the Issuer or its Group companies.
- Employees of Group companies.
- Buyers or owners of real estate developed by the Group.

Allocation results will be communicated via the investor’s account manager.

NB! This summary of the issue terms is indicative, non-binding and not comprehensive. Prospective investors may not rely on it. Prospective investors must review the Issue Terms (incl. the Final Terms), the Information Document and other issue documents available at www.invego.ee/investor

Invego Latvia structure

The presented organisational structure is simplified excluding projects holdings.

Kristjan-Thor Vähi / Meb Trust OÜ

100%

Issuer / Invego Latvia OÜ

100%

Bond issue of up to €8 million

Invego Latvia SIA is the holding company for Invego's development projects in Latvia.

Each development is managed through a separate legal entity (project SPV) to mitigate risks. Invego controls all project SPVs.

The SPVs do not have staff of their own.

All projects are led by Invego OÜ (Estonia) and Invego SIA (Latvia), which act as project management companies. They earn both project management and performance fees.

These companies belong to the Invego group, and the fees will similarly be used for bond repayment.

Use of funds

- Invego has successfully acquired and owns land for its projects, securing a diversified portfolio across different areas and segments.
- Our development projects are in various stages, providing a strong and balanced pipeline.
- The funds will be used to advance our portfolio in Latvia, including the following key development activities:

Design and
planning

Pre-development
expenses

Marketing

Equity contribution
to construction

Summary / Why invest?

We are raising up to €8 million through a secured bond issue with a 4-year maturity and an interest rate of 11%. Invego will export its proven expertise from completed projects in Estonia to the Latvian market, and funds will be used to finance residential developments in Latvia. These projects are strategically positioned in Riga and surrounding areas, where the demand for modern housing is underpinned by outdated stock, rising income levels, and improving loan accessibility.

Invego has demonstrated successful track record in the Estonian residential and commercial real estate

- 10+ years of market experience in both residential and commercial real estate development
- More than 1,300 homes and 150,000 m² developed and delivered
- Ranked 2nd real estate developer in Estonia 2020-2024 by sold homes
- High customer satisfaction in the already completed projects

Experienced team and quality-first approach

- Team consisting of strong market knowledge with solid track-record in the field
- Key stakeholder Kristjan-Thor Vähi acting daily in management team has strong hands-on approach in every Invego development project to provide the vision and maximum quality
- The Latvian business is led by Invego's experienced core team from Estonia

Creating future homes through our development model

- Careful site selection focused on the surrounding positive environment and infrastructure accessibility
- Strategic focus on value creation through innovative development concepts
- Competitive design and construction tenders to ensure best-in-class architecture and delivery
- Value creation with experienced team and compressed development cycle

Attractive market entry conditions and timing

- Riga offers the most affordable housing among Baltic capitals
- Over 90% of residents still live in Soviet-era buildings
- Home loans issued per capita are less than half compared to Estonia and Lithuania
- Declining EURIBOR and nominal wage growth are boosting new homebuyer activity

Strong track record and financials

- €170 million in sales between 2020–2024, supported by high customer satisfaction
- Flagship developments such as Tiskreoja have delivered up to 300% ROI, with a consistent track record of completed projects achieving returns between 120–300%
- IRR expectations range from 15%–23%
- Strong, long-standing partnerships with leading construction and architectural firms

Strong revenue streams from diversified high-quality portfolio in Riga and surroundings

- Invego and its co-investors have invested €24.9 million in Latvian projects, including land and development costs as of 30.04.2025
- Latvian pipeline includes 3,500+ homes with over 300,000 m²
- 30+ projects in different stages of development
- Expected total sales revenue in the Latvian projects during the bond period exceeds €300 million

Thank you!
